

Competition started

Sept. 4

Our project started with Baseline model

Sept. 20

Predict with Baseline model, Kaggle RMSE = 0.91808

Oct. 5

Switched from Python to C++ for faster training

Nov. 5

Models were implemented, started parameter tuning

Nov. 11

Predict with GN model, Kaggle RMSE = 0.87395

Nov. 19

Predict with SVD model, Kaggle RMSE = 0.85358

Nov. 23

Parameter tuning finished

Nov. 24

Modify ELF code for blending predications

Nov. 25

Ridge regression blending, Kaggle RMSE = 0.84686

Dec. 1

Neural network blending, Kaggle RMSE = 0.84662

Dec. 2
